

TRUST

changing lives
changing destinies

Established in the year 2000 in Chennai, Landmark International Foundation for Empowerment (LIFE) is a registered Public Charitable Trust. With a vision to make 'school chalo' the mantra of each child in India, LIFE undertakes several activities for the betterment of public school education in India. LIFE currently has its presence in Mumbai, Chennai, and Bangalore and plans to have a pan India presence in the coming years.

LIFE works closely with the Education Department of the Brihanmumbai Municipal Council (BMC) in Mumbai in providing creative and innovative learning techniques. LIFE undertakes multiple projects for the 49 BMC secondary schools such as Career Counseling, Effective Study Habits, "Math Made Easy", "English Made Easy", Value Education, "Education on Wheels", personality development and has organized regular Industrial Trips to augment public school education.

In 2007, LIFE established the first centre for Learning Disabilities in Nair Hospital, Mumbai. The "LIFE Centre for Learning Disabilities" conducts testing, diagnosing, remediation, counselling and certification free of cost for the children of Mumbai. Over 2500 children have been tested to date. In addition, regular teacher training programs in learning disabilities are conducted through out the year

LIFE also works closely with 18 institutions in Mumbai for the Mentally Challenged in providing training programmes for faculty, parents and students on various workshops connected with the development of the Child. LIFE also collaborates with several institutions (homes, orphanages and remand homes) by conducting workshops on LIFE skills and various recreational activities. Similar activities are conducted in Bangalore with 30 Institutions for Mentally Challenged.

In Chennai, LIFE Trust has established a home for Destitute Children and has cared for the development of 25 children for the last eight years. LIFE has also undertaken various other initiatives, which include Computer training Schools, Non-Formal Tribal Schools, Community Clinics, Medical Camps and Relief Works.

LIFE's mission is collaborating and supporting the Public School System along with other agencies and like-minded individuals in improving the quality of education through creative and effective programmes involving all its stakeholders and the society.

At every level, our only aim is to improve the Public system rather than creating parallel systems. We have been able to affect the lives of more than lakh children in Mumbai, Chennai and Bangalore have since our inception. However, with more than a 300 million children out of school, every morning Life finds innovative ways of 'Changing Lives, Changing Destinies'.
